### Sprint Focus:

- Continue and complete Sprint 3 carry-overs (Activities Management).
- Implement Pomodoro Session features.

### Sprint Retrospective

#### What went well:

- Closed all Sprint 3 carry-overs.
- Delivered end-to-end Pomodoro session capabilities.
- Improved domain layering (DDD) aided faster iteration.

#### What could be improved:

- Slice PRs smaller to speed up code reviews.
- Add automated tests in parallel with features.

#### What needs to be done (for Sprint 5):

- Finish Activity Trends: define dimensions (time, category/activity, outcome) and deliver filterable analytics endpoints.
