

Progress Update | Sprint 5

November 1, 2025 | G-Cache

Sprint 5 percentage completion: 50%

Project completion: 16/44 — 36.36%

| | | |
|---|--------------------------|-----------------------|
| ▼ SPRINT 5 [Notes, Reports and Analytics] | In progress | |
| 📄 CRUD Session Notes | In progress | D Daniel Victorioso |
| 📄 Session Summaries | Done | G Gerald Mamasalanang |
| 📄 Hours Spent | Done | G Gerald Mamasalanang |
| 📄 Activity Trends | In progress | D Daniel Victorioso |
| + New sub-item | | |

Sprint 5 is progressing with a clear focus on reporting and analytics: Session Summaries and Hours Spent are completed and usable, while CRUD Session Notes and Activity Trends are underway. The remaining work centers on finalizing notes management (validation and editing flows) and delivering trend analytics with filterable endpoints and charts.

Sprint Retrospective

What went well:

- Clear scope; rapid progress on summaries and hours.
- Reuse of DDD layers sped up backend work.

What could be improved:

- Earlier alignment on analytics dimensions/filters.
- More test coverage added alongside features.

What needs to be done (for sprint 6):

- SSL Setup
- Input Validation & Sanitization
