Sprint 13 focuses on documentation and AI implementation. The team has successfully completed API Documentation (Swagger/Postman) and Developer Guide. Bug Fixes are currently in progress and expected to be completed by end of sprint.

Sprint Retrospective

What went well:

- Successfully completed comprehensive API Documentation with Swagger/Postman integration
- Implemented AI-powered features including Smart To-Do List Suggestions and Smart Onboarding Wizard
- Developer Guide creation is progressing with detailed architecture, setup instructions, and CI/CD documentation
- Team collaboration on bug fixes with multiple members working in parallel

What could be improved:

- Documentation tasks require more time allocation than initially estimated
- Testing coverage for new AI features

What needs to be done:

- Finish remaining bug fixes
- Update the Unit test and Integration test for AI Implementation
